2. Describe the “medical” goal of the service.
3. Indicate the result of the therapy session (student’s response).
4. Avoid discussing academic goals/issues or attendance.

**Example of Service Note Detail:** Student reports bullying is no longer an issue. Worked on self-esteem to improve symptoms of anxiety and classroom behavior. The student needed prompting to participate.

### Monthly History Notes:

1. Summarize (Evaluate) the student’s monthly progress toward your medical/health-related goal.
2. Include any changes in medical/mental status and changes in treatment with rationale for change.
3. Service History Notes (Daily and Monthly History Notes (Progress) **must not match**).

**Example of Summary Note:** Students identified signs and symptoms of anxiety and good qualities about themselves; however, they appear depressed and lack self-esteem. We will continue to work on self-esteem and anxiety issues next month.
