### INSIGHT-ORIENTED VERSUS INTERACTIVE COMPLEXITY THERAPY

1. Insight-oriented therapy is behavior-modifying and/or supportive conversation between therapist and client

- 2. Interactive complexity therapy incorporates physical aids to overcome barriers to therapeutic treatment:
- A. Maladaptive Communication (i.e. high anxiety, reactivity, repeated questions, or disagreement).
- B. Emotional or Behavioral Conditions inhibiting implementation of the treatment plan.
- C. Mandated reporting such as in situations involving abuse or neglect.
- D. Use of play equipment, devices, interpreter, or translator required due to inadequate language expression

## SERVICE DETAIL DAILY:

- 1. <u>Describe</u> what actually occurred on the date of service. Ensure that the Service Detail Note daily note is sufficiently detailed to allow reconstruction of what transpired for each service billed.
- 2. <u>Indicate</u> the result of the therapy session student's response.

**Example of Service Note Detail:** The student focused on starting "My Calm Down Book" and identified various facial expressions to determine the mood. The student did a self-portrait of his face when angry, then lost focus and was disruptive and disrespectful to his peers.

### MONTHLY SUMMARY PROGRESS NOTES:

- 1. Summarize and evaluate the student's monthly progress toward your medical/health-related goal.
- 2. Include any changes in medical/mental status and changes in treatment with rationale for change.
- 3. Service Detail Daily Notes and Monthly Progress Summary Notes must not match.

**Example of Summary Note:** Student is making limited progress with improving his ability to follow directions and interact with peers appropriately. Will continue to address his goals toward appropriate peer behavior.

**RECORD KEEPING:** Keep copies of all supporting documentation related to this service for a period of 8 years FY+7 regardless of the change in ownership or termination of participation in Medicaid.
