I. Public Awareness and Child Find

R 340.1832(a)

A description of the procedures used by the intermediate school district to advise and inform students with disabilities, their parents, and other members of the community of the special education opportunities required under the law; the obligations of the local school districts, public school academies, and intermediate school district; and the title, address, and telephone number of representatives of those agencies who can provide information about the special education opportunities.

R 340.1832(b)

A description of activities and outreach methods which are used to ensure that all citizens are aware of the availability of special education programs and services.

The following describes the ISD procedures for locating, identifying, and evaluating students who need special education programs and services. This includes outreach efforts for individuals incarcerated in county jails as well as other lower incident placements, like residential facilities, homebound hospitalized, etc.:

Wayne RESA Special Education and Early Intervention Services department is responsible for coordinating Child Find/Outreach activities. A special education consultant and manager are assigned to perform the functions described in this section. Wayne RESA coordinates the Child Find/Outreach activities through the use of the State of Michigan Child/Project Find materials. In order to assist families and service providers in the community, Wayne RESA maintains a toll free Early On/Child Find Hotline (1-877-327-5966).

Procedures for Identifying Potential Special Education Populations: Child Find/Early On activities occur primarily as a result of ongoing interagency coordination through the Wayne County Infant and Toddler Interagency Coordinating Council and the systematic dissemination of awareness and informational materials to the community. Personnel assigned to coordinate and/or operate Child Find assist in the identification of school and community needs; in defining the strategies employed in extending awareness; and in the implementation of required Child Find activities. Every effort is made to provide Child Find information available in the native and home language of the family. Child Find personnel forward all referrals of persons from birth to the age of 26 suspected of having a disability to the appropriate Local Educational Agency (LEA) or Public School Academy (PSA). Through the implementation of special education programs/services, all Local Educational Agencies (LEA's) or Public School Academies (PSA's) assume and accept responsibility for eligible students from birth to the age of 26. They also establish cooperative relationships with other agencies and professionals who may be potential referral or service resources.

Wayne RESA and its constituent local educational agencies, including public school academies, have child find policies and procedures in place to identify, locate, and evaluate students who are in correctional facilities who may have a disability under the IDEA and are in need of special education and related services, regardless of the severity of their disability and consistent with the State's child find and eligibility standards. This responsibility includes students who have never been identified as a student with a disability prior to their entry

into the facility.

The following describes the ISD activities, including partnerships with community agencies, and the forms of media used in the ISD outreach efforts:

Public awareness is provided through a variety of venues. Staff at Wayne RESA, Local Educational Agencies (LEA's) or Public School Academies (PSA's), along with the Wayne County Parent Advisory Committee (WCPAC) and the Early On Infant and Toddler Interagency Coordinating Council all work to promote the awareness of Child Find activities in Wayne County communities. Efforts to promote public awareness of available special education programs and services and each student’s right to a free and appropriate public education include, but are not limited to the following methods:

- In-service opportunities as determined by professional and parent needs assessments
- Wayne RESA consultative resources
- Participation in multimedia releases including but not limited to, radio/television programming and news releases
- Dissemination of state/federal legislative information
- Distribution of informational materials to community agencies, hospitals, and clinics
- Advertisements in local newspapers
- Special projects as defined
- Wayne County Parent Advisory Committee (WCPAC)
- Pre-school screenings for 3-5 year old children
- Community Mental Health Agencies (CMH)
- Detroit and Wayne County Public Health Departments
- Wayne County Department of Human Services
- Detroit and Wayne County Head Start Programs
